Two small ceiling fans for the bedrooms of the Nurses' quarters. These nurses are obliged to shut the only window capable of creating a draught of air as it faces the septic ward-thus shutting off the only source of fresh air. The days are very hot and sultry and sleep is essential to them especially as they have night work which is, at times, very heavy indeed. A

Additional electrical fittings for the nurses quarters — Provision —

The Surgeon General has submitted for the administrative approval of the Govt, a plan and an estimate amounting to Rs 260 for providing two small ceiling fans for the bedrooms of the nurses quarters. It is stated that the nurses are obliged to shut the only window capable of creating a draught of air as it faces the septic ward thus shutting out the only source of fresh air: and that they require the fans as the days are very hot and sultry. In the above circumstances this proposal of the S.G. may be supported in this dept and the file passed on to P.W.D. WD for issue of orders

While the P.W.D.'s letter on p 2 cf refers only to the necessity for two fans the estimate on p 3 cf. provides for 2 fans, 2 plugs and 2 "O. C. table standards (portable complete", while the plan submitted flag (V) refers also to table fans. The S.G. may perhaps be asked to state clearly the items that are required (in addition to fans) and to explain the necessity for them. The case may be returned to E&PH for consulting the S.G. accordingly

Sanction or Government is required only for providing two celing fans in the Nurses quarters attacned to Lady Goschen Hospital, Mangalore and the total cost or this comes to Rs.196/-. The rent data statement has also been prepared for the

provision of fans only. The two table lights are required for the two staff nurses in the Hospital, one employed in the Labour Ward and the other in the Medical and Surgical Wards as shown in the enclosed plan. I can sanction the expenditure on table lights to be supplied to the nurses tables in the wards, if the Government will sanction the provision of ceiling fans in the nurses quarters.
